Name	Country	Language	About You	Info to Share
A Agarwal	India			Have had installed three probes, in few multiples during RnD initially. Currently keeping two software probes live 24/7 and one on standby on various platforms, Ubuntu headless, Alpine, Pi with Docker
Agustin Formoso	Netherlands	Spanish		
amir salehi	Ir			
Amreesh Phokeer	Mauritius		Installed software probes and anchors. I can assist in French.	
Anurag Bhatia	India		I am comfortable with software probes and running a few of them at different locations. I can help folks in setup + if needed can help in local Indian languages like Hindi and Punjabi (besides English).	
Asma Awad	Sudan			
Dieudonne	South Africa	English and French	I'm a prospective Masters student at the University of Cape Town planning to use software probes in my research whose aim it to determine the state of the Internet in low-income countries: Case of the DR Congo. Daily interaction with Ripe Atlas on CLI gives me practical understanding of the platform, hence the ability to be mentor.	I haven't hosted a probe yet just because I am not in the physical location of my intended vantage point. However, I have experience of content creation on Ripe Atlas through my remote internship with AFRINIC. I speak both English and French fluently, which is valuable for the diversity in the Hackthon' potential audience
Eduardo Kaftanski	Chile	Spanish	I have 20 years experience in Linux and DNS and manage my own ASN. I can help with Linux installation of probes in RedHat, CentOS, ubuntu and SuSE. I can help in Spanish and English.	I am a Linux expert with 20 years experience. I can help in Spanish or English. Soy un usuario experto en Linux con 20 años de experiencia. Puedo ayudar en Ingles y Español.
Elisa Peirano	Italy	Spanish	I work at Lacnic, i don't have much experience but for the deployathon purposes I've done the software probe installation in centos 7 and debian 10 machines and would like to offer myself as mentor for spanish speakers.	
Emery Kouassi Assogba	Bénin		I have already deployed 6 probes in Benin Cotonou. I have also motivated my students to do so. I also use RIPE atlas measurements for research purposes.	I am network and system lecturer at University of Abomey-Calavi.
Emile Aben	NL			I've extensively used RIPE Atlas data for analysis and happy to help people with research ideas around RIPE Atlas.
Jaime Olmos de la Cruz	Mexico	Spanish		
Lia Hestina	Netherlands	Indonesian		Hi, this is Lia Hestina from the RIPE NCC, you can ask me about RIPE Atlas ambassador and RIPE Atlas sponsors programme. You can ask me in English, Dutch or Indonesian. --- Hallo nama saya Lia bagian dari RIPE Atlas team. Kenalan yuk! Jangan ragu/sungkan untuk ngajak saya ngobrol seputar RIPE Atlas, sampai ketemu!
Livio Morina	Italia		I already have 3 atlas around. I attended MAT classes in past	
Maurice Kevenaar	The Netherlands		I have a hardware probe, and a lot of experience with Hyper-V and VMWare. Native language: Dutch	
NGA Bertrand	Cameroon	Français		
Nuno Vieira	Portugal	Portuguese, English	Ran a few probes already, both software and hardware, and also some anchors. Experience in Linux. Can pass knowledge in Portuguese.	I have deployed some probes and anchors so far and been involved with the community to spread this. I can help and teach you how to do it. I can assist in Portuguese or English.
Ondřej Caletka	Netherlands		I can cover OpenWRT and TurrisOS platforms as well as other Linux-based OSes. I can speak Czech as well.	Can help with deploying in OpenWRT/TurrisOS. Speaks English and Czech.
Patrick Bisselele	United States	English and French	I have already installed a software probe on an Ubuntu system. I can assist less experienced users. I am good with Linux command line interface. I can help french and english speaking participants.	I am the Founder of Maendeleolab https://www.linkedin.com/groups/12437450/, which is a private lab that focuses on growing a community of learners who have a passion to develop custom network infrastructures using automation. I also serve as a Lead Infrastructure Engineer for at a global financial firm based in the US. I will be available to mentor from 9am to 11am Eastern US time.
Rizkiath YAYA NADJO	Bénin	Français		
Roufique Hossain	Germany	English	AS30956	AS30956
Rudi Arfan	Indonesia			
Swapneel Patnekar	India	English		
Ulrich Wisser	Sweden		Besides English I speak German and Swedish. I do run an anchor and several probes in different places in Sweden.	I am a Ripe Atlas Ambassador since a few years back. At daytime I work for the Swedish Internet Foundation, the ccTLD registry for .se and .nu. Besides hosting probes, we do measurements (mainly DNS) using Ripe Atlas.
Vladislav Bidikov	Macedonia		Experience in 2 RIPE hackathons connected with Atlas Probes. Proud owner of the first ripe probe over 3G and working with software probes after the Hackathon in Rotterdam... Lots of experience with smaller devices (Raspberry pi, LORAWAN Gateways, Banana PI, etc.) so i can help in people willing to install a software probe :)	Network engineer and proud ambassador of Ripe Atlas. Running the ixp.mk project and building a country wide LoraWAN network in Macedonia with the idea that each Gateway should also have a probe to measure the internet :) Never missed a hackathon and enjoys building packages for Centos, Debian and working with Raspberry PI.
Wadinton Tavarez	Republica Dominicana	Español	Buenas, Como ven Soy Wadinton, tengo varios años trabajando mantenimiento y reparación en las áreas de la informática y electrónica, Reparaciones de monitores, ups, printer, cpu, dvr, camaras, laptop, entre otros, instalación de redes, windows, novel, unix etc. aficionado al cine, fotógrafo profesional, he participado en películas, cortos, videos y anuncios, alguno trabajo en mi canal de youtube y para mi sera un placer participar en el Deployathon y ser parte de la comunidad RIPE Atlas gracias.	Buenas, Como ven Soy Wadinton, tengo varios años trabajando mantenimiento y reparación en las áreas de la informática y electrónica, Reparaciones de monitores, ups, printer, cpu, dvr, camaras, laptop, entre otros, instalación de redes, windows, novel, unix etc. aficionado al cine, fotógrafo profesional, he participado en películas, cortos, videos y anuncios, alguno trabajo en mi canal de youtube y para mi sera un placer participar en el Deployathon y ser parte de la comunidad RIPE Atlas gracias.
WAGUE	SENEGAL	FRANCAIS		
Willem Toorop	Netherlands			
Hackathon Ideas				
Aleksi Suhonen	finland		Adding support for Teredo	
Nico Schottelius	CH		get SW probe running on a VIIRB	IPv6 fun worldwide
Seth Schoen	USA		Hi! I'm a programmer previously at the Electronic Frontier Foundation. I live in San Francisco and am now working with John Gilmore on the "IPv4 Unicast Extensions Project" which is experimenting with bringing reserved IPv4 address space into use on the Internet. I have been interested in (though not very involved in) Internet measurement work for anticensorship research, and am currently interested in how we can test OS, router, and network support for routing previously reserved addresses on the Internet. Falo português do Brasil; hablo un poco de Español; angeblich kann ich Deutsch sprechen oder mindestens schreiben. :-)
